PROFILE

# ABOUT US

We are an interior design firm based in Kenya. Our team comprises of vibrant, creative and exemplary interior designers whose sole objective is to deliver quality and excellence to our clients.

At Creation Office Fit outs, we always endeavor to uphold the highest standards of art, design, planning and project management while strictly adhering to the ethics and best practices for the benefits of our clients.

# CORPORATE STATEMENT

## MISSION

---

To be the leading interior designs solutions company in Africa offering original and tailor-made creative designs.

## GOAL

---

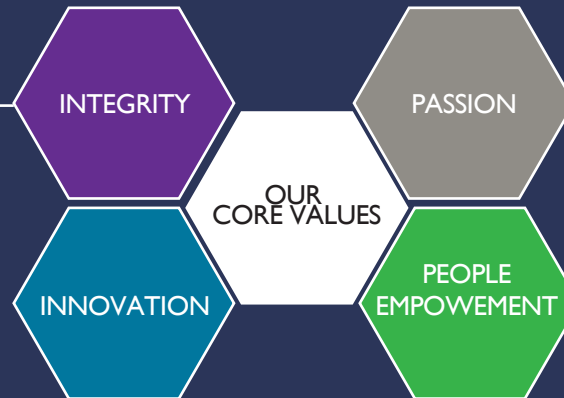

To have long-term customer and good vendor relationships that will carry us through challenging times or tight deadlines.

## COMMITMENT

To always listen to our clients, respond swiftly to their current needs.

## CORE VALUES

---

# PROJECT MANAGEMENT

Regardless of the project scale, every interior design project begins with a vision and floor plan. Our mission is to provide a well-designed, yet functional space that compliments your lifestyle and aesthetic preferences.

We've worked with clients throughout Kenya. Some prefer to be involved throughout the entire process, while others want to approve a design and watch the spaces come alive. In either circumstance, we offer full-scale interior design solutions and project management services.

# OUR SERVICES

*We undertake commercial office fit-outs in the following key areas of design*

## INTERIOR ARCHITECTURE

Our team of designers will help come up with the desired interior architecture for the spaces required in the offices. We will create unique spaces depending on your needs and number of staff in the organization.

## FURNITURE SUPPLY

Whether fixed or modular, we supply and fit office furniture for offices and other associated area like the kitchen and the washrooms. We ensure that our furniture fits the designs created to match. We choose the right materials and colours for comprehensive wholeness.

## CONSTRUCTION

Once interior drawings are approved, we will engage our experts in the construction stages. We will construct interior walls in full accordance with the structural engineers' notes for the premises so as not to compromise with the structural strength and stability of the existing structure.

## PARTITIONING

Our partitioning experts use aluminum and dry walls to partition spaces. Use of glass ensures a lot of natural lighting thus conserving energy. The use of dry walls like Gypsum and MDF leads to conservation of environment since we do not use wood. We put a lot of emphasis on green design.

## REFURBISHMENTS

This department engages in refurbishment of space. We repair walls, leaking roofs, replace worn out ceilings while at the same time taking care of electrical works arising thereof. We also redecorate surrounding landscapes and even build landmarks to compliment the refurbished structures.

## CEILING & FLOOR FINISHES

We provide a range of ceiling and flooring solutions based on client needs and existing space structure. Ceiling finishes include but are not limited to gypsum bulkheads, acoustic ceilings, lighting fixtures and wood detail. Our flooring expertise include installation of carpets, tiles and floorboards. We also undertake supply and fit of window solar films and blinds.
